**News Release**

**FOR IMMEDIATE USE BEFORE NOVEMBER 12, 2018**

**Avantor® to Showcase NuSil™ Brand Silicone Adhesives for Medical Device Manufacturers at COMPAMED 2018**

*Company's silicone adhesives and other advanced biomaterial technologies help medical device manufacturers improve production processes and device performance*

*NuSil's customization capabilities provide options for specific device designs and manufacturing process requirements.*

**Radnor, Pa. (USA) – November 7, 2018** – [Avantor®](#) today announced it will highlight its [NuSil™](#) brand biocompatible [silicone adhesives](#) and other technologies at [COMPAMED 2018](#), November 12-15 in Düsseldorf, Germany. The advanced biomaterial solutions help medical device manufacturers improve their production processes and device performance.

NuSil experts will be available in **Hall 8A, Booth L15** to discuss a full range of high-purity silicone adhesives that enables device manufacturers to evaluate and select the right type of silicone adhesives for their specific applications. NuSil adhesives include one- and two-part

room temperature (RTV) and high temperature vulcanizing (HTV) formulations. A wide range of NuSil primers is also available to increase adhesion to various substrates.

"As manufacturers scale up for larger volumes, they are always seeking ways to enhance their processes. Using the right NuSil™ brand silicone adhesives can play an important role in optimizing production and improve the functional performance of the device," said Anthony Feng, Vice President, Biomaterials. "We collaborate with device manufacturers to find the best silicone that suits their need, whether it's an off-the-shelf product or a customized formulation."

In addition to silicone adhesive technology, Avantor will highlight several other NuSil [biomaterial](#) solutions including [lubricious silicones](#) and in situ cure technology for silicone elastomers.
